THE COUNCIL'S VISION

- To provide the best services to its residents

INFRASTRUCTURE

These suggestions are made through a system on Social Media where residents are also able to vote for them. The Council will set up an award system which can take various forms.

   f) Triq V Boron with Triq San Publju.
6. The Council works on a local plan by contracting experts to carry out a study around Naxxar regarding parking and traffic. It will study the possibilities of a PPP for an underground parking possibly underneath Ġnien Toni Vella.
7. The Council considers the installation of electronic signs which normally inform drivers of their speed in order to reduce it. They would be installed on roads which although local

roads, are considered as local arteries, such as Triq San Pawl, Triq V Boron, Triq it-Tuffieħ and Triq Anton Manuel Caruana.
